These Statements actually refer to the decisions already taken by the international community regarding the rights of the Armenian people, which have been adopted but have not been implemented yet.

**We, the undersigned, declare that:**

1) Issues concerning the Republic of Armenia, the Republic of Artsakh and the Armenian people as a whole should be resolved only within and based on the framework of the indefinite and indisputable rights granted to the Armenian people, which, in particular, are presented in the above-mentioned Statements of the Republic of Western Armenia (State of Armenia) addressed to the UN, the permanent members of the UN Security Council and the European Parliament.

2) The establishment of a stable and long-term peace in the South Caucasus and the Greater Middle East is possible through the implementation and realization of the rights of the indigenous peoples of the region, including Armenians, Greeks, Assyrians, Yezidis, Kurds, Talyshes, Lezgins and others. The Armenian issue, which is the part of the Eastern Question, is still unresolved. A fair and final settlement of the Armenian issue is the main guarantee of peace in the region.

3) After the unprecedented aggression undertaken against the Republic of Artsakh on September 27, 2020 by the coalition of Azerbaijan-Turkey-Pakistan - terrorist groups of the Middle East ..., the Armenians of the whole world - the entire Armenian people is already a political and legal entity - a subject with the obligations rights and actions.

4) As on September 22, 1920, and on September 27, 2020, the aggressions committed against the Republic of Armenia and the Republic of Artsakh were aimed at blocking a fair solution to the Armenian Question within the framework of the rights granted to the Armenian people.

Accordingly, the Armenian people have one way of salvation.

Using all legal and political possibilities, including the formation of national, state-political, parliamentary associations and formations, to act as a political and legal entity - a subject, seeking a final and fair solution of the Armenian issue by all possible means.

This means that the Armenian people's struggle for the right to life, development and future is entering a qualitatively new phase.
